

AMENDMENTS TO THE CLAIMS:

This listing of claims will replace all prior versions and listings of claims in the application:

Listing of Claims:

1. (Currently Amended) A method of providing shares in a proxy asset set, each proxy asset in said proxy asset set having a proxy asset account value, said method comprising:

- A. defining a proxy asset set account value equal to the sum of the account values of all proxy assets in said proxy asset set, including constraining said proxy asset set account value by a value of a resource pool including one or more illiquid assets;
- B. defining a first set of shares representing claims on a first subset of said proxy assets, wherein said first set of shares experience an increase in value as a function of a positive change in an index ~~one or more indices~~;
- C. defining a second set of shares representing claims on a second subset of proxy assets, wherein said second set of shares experience an increase in value as a function of a negative change in the index ~~said one or more indices~~;
- D. shifting value between said first set of shares and said second set of shares as a function of a change in the index ~~one or more indices~~; and
- E. offering said first set of shares and said second set of shares to another individual, wherein at least some shares from one or both of said first set of shares and said second set of shares may be procured, without a requirement of procuring sets of shares composed of shares from said first set of shares and said second set of shares.

2. (Previously Presented) A method as in claim 1, wherein at least one issuer does said offering and the issuer has the same number of shares from said first set of shares and said second set of shares.

3. (Original) A method as in claim 2, wherein said shifting is controlled by said issuer.
4. (Previously Presented) A method as in claim 1, wherein said offering includes offering one or more shares from said first set of shares and one or more shares from said second set of shares at different times.
5. (Canceled)
6. (Previously Presented) A method as in claim 1, wherein said proxy assets represent one or more foreign or domestic liquid or illiquid assets or proxy assets, chosen from a group of assets comprising stocks, bonds, mutual funds, groups of stocks, accounts, real property, personal property, and one or more streams of income from one or more corporations, partnerships, joint ventures, sole proprietorships, individuals, trusts, estates, or contracts.
7. (Currently Amended) A method as in claim 1, wherein said proxy assets represent one or more underlying assets represented by said index ~~one or more indices~~.
8. (Currently Amended) A method as in claim 1, wherein ~~at least one~~ said index ~~from said one or more indices~~ represents a composite index chosen from a group comprising:
- 1) NASDAQ;
 - 2) S & P 500;
 - 3) Dow Jones Industrial Average;
 - 4) NYSE Composite; and
 - 5) Nikkei.

9. (Currently Amended) A method as in claim 1, wherein ~~at least one~~ the index ~~from said one or more indices~~ is weighted.

10. (Original) A method as in claim 1, wherein said offering includes offering by a plurality of issuers.

11. (Previously Presented) A method as in claim 1, wherein said proxy asset set includes a plurality of types of proxy assets, wherein each type of proxy asset represents one or more different liquid or illiquid assets.

12. (Original) A method as in claim 1, wherein shares from said first set of shares and shares from said second set of shares may be issued and redeemed at different times.

13. (Currently Amended) A method as in claim 1, wherein shares from said first set of shares and shares from said second set of shares are offered as a function of one or more conditions, including at least one of the value of the resource pool reaching a threshold value, the value of the ~~one or more indices~~ index reaching a threshold value, the value of at least one of the first set of shares and said second set of shares reaching a threshold value.

14. (Original) A method as in claim 1, wherein said offering includes offering shares from at least one of said first set of shares and said second set of shares on an exchange.

15. (Previously Presented) A method as in claim 1, wherein said offering includes offering by an issuer to an investor shares from one of said first set of shares or said second set of shares in accordance with an agreement imposing conditions on at least one of said shifting or on a distribution to said investor as a function of a value of said available shares.

16. (Currently Amended) A method as in claim 1, further comprising:

- F. terminating the offering of shares from at least one of said first set of shares and said second set of shares as a function of a triggering event, wherein said triggering event is chosen from a group of events comprising:
- 1) a termination of a predetermined period of time;
 - 2) a value variation in said index ~~set of indices~~;
 - 3) a change in rate of return of said proxy asset shares;
 - 4) a change in a set of one or more economic indicators;
 - 5) a change in level of risk reward;
 - 6) a change in the value of the resource pool; and
 - 7) a change in the prime lending rate.

17. (Currently Amended) A method as in claim 1, further comprising:

- F. adjusting the value of said resource pool as a function of a triggering event, wherein said triggering event is chosen from a group of events comprising:
- 1) a termination of a predetermined period of time;
 - 2) adding ~~or deleting~~ an index ~~from~~ to said index or deleting said index ~~set of indices~~;
 - 3) a value variation in said index ~~set of indices~~;
 - 4) a change in a set of one or more economic indicators;
 - 5) a change in a level of risk reward; and
 - 6) a change in the prime lending rate.

18. (Currently Amended) A system for providing shares in a proxy asset set, each proxy asset in said proxy asset set having a proxy asset account value, said system comprising:

- A. a memory for storing a proxy asset set account value equal to the sum of the account values of all proxy assets in said proxy asset set, wherein said proxy asset set account value is constrained by a value of a resource pool including one or more illiquid assets;
- B. at least one proxy asset share manager coupled to said memory and configured to:
 - 1) define and store a first set of shares representing claims on a first subset of said proxy assets, wherein said first set of shares experience an increase in value as a function of a positive change in an index ~~one or more indices~~;
 - 2) define and store a second set of shares representing claims on a second subset of proxy assets, wherein said second set of shares experience an increase in value as a function of a negative change in the index ~~said one or more indices~~;
- C. a shifter coupled to said proxy asset manager and configured to shift value between said first set of shares and said second set of shares as a function of the index ~~said one or more indices~~; and
- D. a broker module coupled to said proxy asset manager and configured to offer said first set of shares and said second set of shares to another individual, wherein at least some shares from one or both of said first set of shares and said second set of shares may be procured, without a requirement of procuring sets of shares composed of shares from said first set of shares and said second set of shares.

19. (Previously Presented) A system as in claim 18, wherein said broker module is configured to facilitate generation of offers by at least one issuer, wherein said issuer has the same number of shares from said first set of shares and said second set of shares

20. (Original) A system as in claim 19, wherein said shifter is configured for control by said issuer for the shares offered by said issuer.

21. (Previously Presented) A system as in claim 18, wherein said broker module is configured for offering one or more shares from said first set of shares and one or more shares from said second set of shares at different times.

22. (Canceled)

23. (Previously Presented) A system as in claim 18, wherein said proxy assets represent one or more foreign or domestic liquid or illiquid assets or proxy assets, chosen from a group of assets comprising stocks, bonds, mutual funds, groups of stocks, accounts, real property, personal property, and one or more streams of income from one or more corporations, partnerships, joint ventures, sole proprietorships, individuals, trusts, estates, or contracts.

24. (Currently Amended) A system as in claim 18, wherein said proxy assets represent claims on one or more underlying assets represented by said index ~~one or more indices~~.

25. (Currently Amended) A system as in claim 18, wherein ~~at least one~~ said index ~~from said one or more indices~~ represents a composite index chosen from a group comprising:

- 1) NASDAQ;
- 2) S & P 500;
- 3) Dow Jones Industrial Average;
- 4) NYSE Composite; and
- 5) Nikkei.

26. (Currently Amended) A system as in claim 18, wherein ~~at least one~~ said index ~~from said one or~~

~~more indices~~ is weighted.

27. (Original) A system as in claim 18, wherein said broker module is configured to facilitate offers of shares by a plurality of issuers.

28. (Previously Presented) A system as in claim 18, wherein said proxy asset set includes a plurality of types of proxy assets, wherein each type of proxy asset represents one or more different liquid or illiquid assets.

29. (Original) A system as in claim 18, wherein said proxy asset manager includes a redemption module and shares from said first set of shares and shares from said second set of shares may be issued and redeemed at different times.

30. (Currently Amended) A system as in claim 18, wherein shares from said first set of shares and shares from said second set of shares are offered by said broker module as a function of one or more conditions, including at least one of the value of the resource pool reaching a threshold value, the value of the ~~one or more indices~~ index reaching a threshold value, the value of at least one of the first set of shares and said second set of shares reaching a threshold value.

31. (Original) A system as in claim 18, wherein said broker module is configured to offer shares from at least one of said first set of shares and said second set of shares on an exchange.

32. (Previously Presented) A system as in claim 18, wherein said broker module is configured to facilitate offering by an issuer to an investor shares from one of said first set of shares or said second set of shares in accordance with an agreement imposing conditions on at least one of said shifting or on a distribution to said investor as a function of a value of said available shares.

33. (Currently Amended) A system as in claim 18, further comprising:

- E. a termination module configured to terminate the offering of shares from at least one of said first set of shares and said second set of shares as a function of a triggering event, wherein said triggering event is chosen from a group of events comprising:
- 1) a termination of a predetermined period of time;
 - 2) a value variation in said index ~~set of indices~~;
 - 3) a change in rate of return of said proxy asset shares;
 - 4) a change in a set of one or more economic indicators;
 - 5) a change in level of risk reward;
 - 6) a change in the value of the resource pool; and
 - 7) a change in the prime lending rate.

34. (Currently Amended) A system as in claim 18, wherein said proxy asset manager includes:

- E. an adjustment module configured to adjust the value of said resource pool as a function of a triggering event, wherein said triggering event is chosen from a group of events comprising:
- 1) a termination of a predetermined period of time;
 - 2) ~~adding or deleting an index from to~~ said index ~~or deleting said index set of indices~~;
 - 3) a value variation in said index ~~set of indices~~;
 - 4) a change in a set of one or more economic indicators;
 - 5) a change in a level of risk reward; and
 - 6) a change in the prime lending rate.

35. (Currently Amended) A method for providing a proxy asset set of two or more proxy assets that responds to an index ~~a set of one or more indices~~, each proxy asset of the proxy assets set having a

proxy asset account value and a number of proxy asset shares representing equal claims on the proxy asset account value, the proxy asset set having a total number of shares equal to a sum over all the number of proxy asset shares in the proxy assets set and having a proxy assets set account value equal to a sum over all the proxy asset account values of the proxy assets set, the method comprising:

- A. defining a proxy asset account value with a predetermined account formula responsive to ~~at least one corresponding~~ the index of ~~the set of one or more indices~~;
- B. constraining the proxy assets set account value by a value of a resources pool including one or more illiquid assets; and
- C. reevaluating the proxy asset account value according to the account formula upon occurrence of each event of a plurality of predetermined events,

~~wherein said one or more indices includes at least one of an index that~~ the index represents one or more corporate stocks, mutual funds, proxy assets, or a composite index chosen from a group of indices derived from or comprising one or more of the:

- 1) NASDAQ;
- 2) S & P 500;
- 3) Dow Jones Industrial Average;
- 4) NYSE Composite; and
- 5) Nikkei.

36. (Previously Presented) The method of claim 35, further comprising:

- D. offering one or more of said proxy assets shares for public or private trading.

37. (Previously Presented) The method of claim 35, further comprising:

- D. offering one or more of said proxy assets shares on an exchange.

38. (Previously Presented) The method of claim 35, further comprising:

- D. trading one or more of said proxy asset shares.

39. (Currently Amended) The method of claim 35, further comprising:

- D. forming, from said proxy asset shares, a first set of shares configured to experience an increase in value as a function of a positive change in the index ~~said set of indices~~; and
- E. forming, from said proxy asset shares, a second set of shares configured to experience an increase in value as a function of a negative change in the index ~~said set of indices~~.

40. (Previously Presented) The method of claim 39, further comprising:

- F. shifting value between said first set of shares and said second set of shares.

41. (Previously Presented) The method of claim 35, further comprising:

- D. redeeming one or more of said proxy asset shares.

42. (Currently Amended) The method of claim 35, further comprising:

- D. offering one or more of said proxy asset shares; and
- E. terminating the offering of said proxy asset shares as a function of a triggering event, wherein said triggering event is chosen from a group of events comprising:
 - 1) a termination of a predetermined period of time;
 - 2) a value variation in said index ~~set of indices~~;
 - 3) a change in rate of return of said proxy asset shares;

- 4) a change in a set of one or more economic indicators;
- 5) a change in level of risk reward;
- 6) a change in the value of the resource pool; and
- 7) a change in the prime lending rate.

43. (Currently Amended) The method of claim 35, further comprising:

D. adjusting the value of said resource pool as a function of a triggering event, wherein said triggering event is chosen from a group of events comprising:

- 1) a termination of a predetermined period of time;
- 2) adding ~~or deleting~~ an index ~~from~~ to said index ~~or deleting said index~~ set of indices;
- 3) a value variation in said index ~~set of indices~~;
- 4) a change in a set of one or more economic indicators;
- 5) a change in a level of risk reward; and
- 6) a change in the prime lending rate.

44. (Currently Amended) The method of claim 35, wherein the account formula includes a leverage factor, and wherein said leverage factor is applied to weight the index ~~one or more of said set of indices~~.

45. (Currently Amended) A system for providing a proxy asset set of two or more proxy assets, each including one or more illiquid assets, that respond to an index ~~a set of one or more indices~~, each proxy asset of the proxy assets set having a proxy asset account value and a number of proxy asset shares, the proxy asset set having a total number of shares equal to a sum over the proxy assets set of the number of proxy asset shares and having a proxy assets set account value equal to a sum over the proxy assets set of the proxy asset account value, the system comprising:

- A. a network;
- B. a computer readable medium connected to the network, said computer readable medium storing a value of a resources pool and a number of shares of each proxy asset for each investor of a set of investors;
- C. one or more bank processors connected to the network configured to compute the value of the resources pool; and
- D. one or more proxy assets set processors configured for evaluating a proxy asset account value as a function of ~~at least one corresponding~~ the index ~~of the set of one or more indices~~, and for constraining the proxy assets set account value by the value of the resources pool,

~~wherein said one or more indices includes at least one of an~~ the index ~~that~~ represents one or more corporate stocks, mutual funds, proxy assets, or a composite index chosen from a group of indices derived from or comprising one or more of the:

- 1) NASDAQ;
- 2) S & P 500;
- 3) Dow Jones Industrial Average;
- 4) NYSE Composite; and
- 5) Nikkei.

46. (Previously Presented) The system of claim 45, wherein said proxy assets set processor is further configured to offer one or more of said proxy assets shares for private trading.

47. (Previously Presented) The system of claim 45, wherein said proxy assets set processor is further configured to offer one or more of said proxy assets shares for public trading.

48. (Previously Presented) The system of claim 45, wherein said proxy assets set processor is further

configured to enable trading of one or more of said proxy asset shares.

49. (Canceled)

50. (Previously Presented) The system of claim 49, wherein said proxy assets processor is further configured to shift value between said first set of shares and said second set of shares.

51. (Previously Presented) The system of claim 45, wherein said proxy assets set processor is further configured to enable redemption of at least some of said proxy asset shares.

52. (Currently Amended) The system of claim 45, wherein said proxy assets set processor is further configured to enable:

offering of one or more of said proxy asset shares; and
termination of said offer of said proxy asset shares as a function of a triggering event,
wherein said triggering event is chosen from a group of events comprising:

- 1) a termination of a predetermined period of time;
- 2) a value variation in the index ~~said set of indices~~;
- 3) a change in rate of return of said proxy asset shares;
- 4) a change in a set of one or more economic indicators;
- 5) a change in level of risk reward;
- 6) a change in the value of the resource pool; and
- 7) a change in the prime lending rate.

53. (Currently Amended) The system of claim 45, wherein said proxy assets set processor is further configured to adjust the value of said resource pool as a function of a triggering event, wherein said triggering event is chosen from a group of events comprising:

- 1) a termination of a predetermined period of time;
- 2) adding ~~or deleting~~ an index to said index or deleting said index ~~from said set of indices~~;
- 3) a value variation in said index ~~set of indices~~;
- 4) a change in a set of one or more economic indicators;
- 5) a change in a level of risk reward; and
- 6) a change in the prime lending rate.

54. (Currently Amended) The system of claim 45, wherein the account formula includes a leverage factor, and wherein said leverage factor is applied to weight said index ~~one or more of said set of indices~~.

55. (Currently Amended) A method of providing shares in a proxy asset set, each proxy asset in said proxy asset set having a proxy asset account value, said method comprising:

- A. defining a proxy asset set account value equal to the sum of the account values of all proxy assets in said proxy asset set, including constraining said proxy asset set account value by a value of a resource pool;
- B. defining a first set of shares representing claims on a first subset of said proxy assets, wherein said first set of shares experience an increase in value as a function of a positive change an index ~~in one or more indices~~;
- C. defining a second set of shares representing claims on a second subset of proxy assets, wherein said second set of shares experience an increase in value as a function of a negative change in the index ~~said one or more indices~~; and
- D. shifting value between said first set of shares and said second set of shares as a function of a change in the index ~~one or more indices~~;

wherein the proxy asset set represents at least one liquid asset.

56. (Currently Amended) A system for providing shares in a proxy asset set, each proxy asset in said proxy asset set having a proxy asset account value, said system comprising:

- A. a memory for storing a proxy asset set account value equal to the sum of the account values of all proxy assets in said proxy asset set, wherein said proxy asset set account value is constrained by a value of a resource pool;
- B. at least one proxy asset share manager coupled to said memory and configured to:
 - 1) define and store a first set of shares representing claims on a first subset of said proxy assets, wherein said first set of shares experience an increase in value as a function of a positive change in an index ~~one or more indices~~;
 - 2) define and store a second set of shares representing claims on a second subset of proxy assets, wherein said second set of shares experience an increase in value as a function of a negative change in the index ~~said one or more indices~~; and
- C. a shifter coupled to said proxy asset manager and configured to shift value between said first set of shares and said second set of shares as a function of the index ~~said one or more indices~~,

wherein the proxy asset set represents at least one liquid asset.
